ASADBEK UMAROV

FrontendDeveloper(React/Next.js/TypeScript)

Tashkent,Uzbekistan|+998772687865|asadbekumarov1202@gmail.com |LinkedIn | GitHub | Portfolio

PROFILE

Frontend Developer with hands-on experience building production interfaces with React, Next.js and TypeScript. Comfortable owning a feature end-to-end: component architecture, state management (Redux Toolkit / RTK Query), REST API integration and responsive UI with Tailwind CSS. Completed an intensive frontend program at Najot Ta'lim and shipped multiple real client and personal projects since. Looking for a Frontend / Junior-Middle Frontend role where I can take ownership of features and grow into a Middle position.

SKILLS

Core: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, React Native
State & Data: Redux Toolkit, RTK Query, REST API integration
Styling: Tailwind CSS, CSS3, responsive / mobile-first design
Tools: Git, GitHub, Figma-to-code workflow

LANGUAGES

- English — Intermediate (B1): comfortable reading technical documentation
- Uzbek — Native

EXPERIENCE

Aug 2025 – Nov 2025

Freelance—SoftTurtkul—"Darrov"WebApp

- Co-developed Darrov, a multi-service Telegram Web App (similar in concept to Yandex Go), as part of a 3-person remote team (1 backend, 2 frontend).
- Built booking and ordering flows across multiple service categories: taxi, food delivery, handyman services (electricians, plumbers, technicians) and product orders from shops.
- Built a responsive UI with React.js, TypeScript and Tailwind CSS, optimized for Telegram's constrained in-app browser.
- Integrated REST APIs to handle real-time orders and service requests; the platform processed 5000+ orders in total, tracked via the admin panel.

PROJECTS

Smartlife.uz — Smartphone E-commerce Platform | Next.js, TypeScript, RTK Query, Tailwind CSS

- Built frontend modules for a live online smartphone store in Uzbekistan, including product catalog, search and cart flows.
- Implemented API data fetching and caching with RTK Query to reduce redundant requests.
  Developed a responsive, mobile-first UI with Tailwind CSS.

DNK Expert — Medical Diagnostics Catalog Website | Next.js, TypeScript, RTK Query, Tailwind CSS

- Built the frontend of a live corporate website and product catalog for a supplier of PCR systems and laboratory diagnostic solutions in Uzbekistan.
- Developed a responsive, mobile-first UI with support, FAQ and contact sections.
- Configured SEO metadata and Open Graph tags to improve search visibility and link previews.

EDUCATION

Frontend Development in Web Development — Najot Ta'lim

Mar 2024 – Mar 2025

- Intensive program covering modern frontend engineering: React, Next.js, TypeScript, state management and API integration.
- Certificate of Completion — Frontend Development, Najot Ta'lim (awarded May 28, 2025).
